Comments

Extremely happy with Frances progress already in the last few weeks since starting. She loves her teachers, is happy going to school and happy when she comes home. The school is very, very good on informing parents of things. Couldn't ask for more. The school is thriving already and we are very happy that Frances is at willow and excelling herself so well. Good job willow!!

Well done 😊

I have noticed a significant change in the school since Mr Hales has joined the children seem calmer and love Nico.

Piper Centre staff are amazing and have helped my daughter make good progress in all areas.

I feel communication between the school and parents is now much more effective. Regular updates on Facebook and ClassDojo are very informative along with the fortnightly newsletters. My child always seems happy to go to school and is regularly talking about current topics and what she has learnt.

You have worked harder for my son than many other professionals I have dealt with. I think so highly of your attitude, your care and compassion towards him and how his behaviour impacts on the rest of the class. Thank you for the effort you make everyday in going above and beyond to meet his needs and those of the class as a whole.
